

# TRI-WEEKLY KENTUCKY YEOMAN.

"THE PRICE OF LIBERTY IS ETERNAL VIGILANCE."

VOL. XIX.

## THE TRI-WEEKLY YEOMAN.

### Steamboat Departures.

Steamer *River Queen*, 3 days every Tuesday and Friday at 8 A. M. for Louisville.  
Steamer *Wynn* leaves every Saturday at 12 M. for Cincinnati.

### Arrival and Departure of Trains.

**FRANKFORT AND LOUISVILLE.**  
On and after November 12, 1871, trains will leave Frankfort daily (Sunday's excepted) as follows:

For Louisville.....	7:30 A. M.	3:30 P. M.
Arrive at Lexington.....	1:30 P. M.	6:30 P. M.
Leave Lexington.....	2:30 P. M.	7:30 A. M.
Arrive at Frankfort.....	3:30 P. M.	8:30 A. M.
Leave Frankfort.....	5:30 P. M.	10:30 P. M.
Arrival station for Louisville.....	7:30 A. M.	
Arrive at Louisville.....	8:30 A. M.	
Leave Louisville.....	9:30 A. M.	
Arrive at Frankfort.....	10:30 A. M.	

### Stage Departures.

**LEAVES**  
Harrisburg and Danville, (Daily), .90 A. M.  
Shelbyville, (Daily), .90 A. M.  
Georgetown, (Tri-Weekly), 10:00 A. M.  
Office at Capital Hotel.

### Time for Closing the Stage.

First Louisville and Western mail closes at..... 6:30 A. M.  
First Lexington, Cincinnati, and East..... 8:25 A. M.  
Second Louisville and Western mail closes at..... 2:45 P. M.  
Second Louisville and Cincinnati mail closes at..... 6:45 P. M.  
Danville mail closes..... 9:30 A. M.  
Midway, Versailles, and Georgetown mail closes at..... 8:30 A. M.  
Brizton and Olney, Virginia mail closes at..... 7:30 A. M.  
Winton Salmour, Great Crosses, and Union Office open from 6 o'clock A. M. to 6:30 P. M.  
**LEXINGTON HOTEL**, P. M.

### (From the Paper of the Period.)

#### A FISH STORY.

In the Chesapeake and her tributary streams, Where broadening out to the bay they come, And the great fresh waters meet the brine, There swims a fish that is called the drum— A fish of wonderful beauty and force, That bites like a steel trap and pulls like a horse. He is heavy of girth at the dorsal fin, And tapering downward back and tail; Long as a salmon, if not so stout, And springy and swift as the mountain trout; For often at night, in a sportive mood, He comes to the brink of the moonlight flood, And tosses a glittering curve aloft, Like the silver bow of the God—then soft He dashes deliciously back in spray, And tremulous circles go spreading away.

Down by the margin of the York's broad stream,

An old turkey lived, of the ancient regime, His laugh was loud, though his lot was low; He loved his old master, and hated his foe, Small and meagre was this Old Ned, For many long winters had frosted his head,

And bared his fore and vigor;

But, though his wits all white had become, And his face wrinkled up like a wash-woman's thumb,

And his back was bent, he was thought by some,

A remarkably fat old pigger,

But he snuffed, he said, from a steady attack

Of "miserly in de head and pain in de back," Till his old master gave him "his time to his self,"

And the boy-worn old bondsman was laid on the shelf.

Happily off Edward! his labor was done, With nuthin' strong to do but sit in the sun, And free to follow his darling wish;

Of playing his fiddle and catching his fish,

He had earned his playin' with a fiddle now, And so, back to the other Ned I Ned in the song,

He shod down the shovel and the hoe,

And caught up the hill and the bow,

He played by the rule

On the strictest school

Of the old-fashioned plantation digger-fiddle.

It happened Old Ned went fishing one day,

And out on the blue,

In his dug out canoe,

He carried his little dog along to play,

Long he fished with his nest-ate art;

There came not a nibble to gladden his heart;

So he then lit his pipe to his ankle tickle,

To be ready to haul it if a fish should bite,

And seized his fiddle. So sweet did he play,

That the waves leaped up in a laugh of spray,

To invisible water nymphs dancing above,

But shower and shower he drew the bow,

And sang quite steadily just in the middle,

He played by the rule

On the strictest school

Of the old-fashioned plantation digger-fiddle.

Just then, a huge drum, sent thither by fate,

Caught a passing gleam of the tempting bait,

And darted upon it with greedy jaws,

And round the hook in his upper jaws,

One terrible jerk of wrath and dread

From the wounded fish as he sped,

With a strength by rage made doubled,

And into the water went Old Ned—

No time for any "last words" to be said,

For the waves settled placidly over his head,

And his last remark was a bubble.

Let us well the struggle beneath the brine,

Of the darling fish and tangling line,

The bottle, of course, was a short one, since

Old Ned, not gifted with gifts or gifts,

And down in the deep, was as much out of place,

As a mermaid would be in a trotting-race;

And motionless soon at the bottom he lay,

As mute as the bubble that floated away.

They were washed ashore by the leaping tide,

And the fisherman found them side by side,

In a common death, and together bound—

So bound and tangled together.

That their fate was involved in the dark mystery,

Of which was the catcher and which the eaten;

For the fish was hooked hard and fast by the gill,

And the darkey was lassoed around the heel,

And each had died by the other.

And the fisherman thought it would never be known,

After all their thinking and figuring,

Whether the niggar ashore had gone;

Or the fish had gone ashore?

The two-hundredth anniversary of the birth of Peter the Great of Russia on June 11th, 1872, and the Russians intend to open a great polytechnic exhibition in Moscow on that day. All nations are invited to contribute. The Russian Steam Trading and Navigation Company, will forward goods, freight free, and the railroads will carry at reduced rates goods intended for the exhibition.

### The Patagonians and their Infants.

Their superstition makes them regard as divinities all phenomenal children, principally such as are born with a larger number of fingers or toes than is natural to them. According to their belief, it is a presage of great happiness for their family. As to those that are altogether deformed—such cases are very rare—or whose constitution does not appear to fit them for the kind of life they would have to lead, they make way with them either by breaking their limbs or smothering them; then carry them to a distance and abandon them, without burial, to the wild dogs and birds of prey. If the innocent little creature is considered worthy to live, it becomes from that instant the object of the whole love of its parents, who, if necessary, will submit themselves to the greatest privations to satisfy its least wants or exactions. They place their new-born upon a small ladder, which serves instead of a cradle. The upper portion of its little body rests on the cross pieces or rungs ranged close together, and covered with sheep skin, while the lower part is included in a sort of hollow formed by other cross pieces below the apertures. The child is held in this position by soft cords wound above the skin, which serve instead of linen. —The years of slavery among the Patagonians.

THE LANDMARK OF JERUSALEM.—The "Dome of the Rock," which marks the site of that of the Ca'abah marks Washington, has no rival for beauty, hardly for sanctity. Believers in three great religions revere the spot where Solomon's Temple once stood; the Mohammedans, who only exalt Mecca a little higher; the Jew, who has had no other actual seat of worship, and who expects to meet a reconciled Jehovah at that accepted shrine; and the Christian, who held it awhile through the possession of Pilgrim. The blue-and-white temple seems as a cloud resting for a moment over the altar of so many thousand years sacrificed, by-and-by to melt away in the same heavens. No structure that ever stood could have been more graceful—none more sublime. It is strange that so charming a model has never been followed. For inferior patterns have been servilely copied, but none has been attempted of this, whose perfection is said to have cost the artist his head, the said being determined the experiment should not be repeated. The recent explorations of English engineers, besides mapping out the whole area belonging to the ancient court of the Gentiles—an area of one thousand by fifteen hundred feet—have proved all that was conjectured about the antiquity of the hewed stones forming the outer wall. They certainly go back to Solomon, and are remarkable stones for that early day, though far inferior to the Egyptian masterpieces, when thousands of artisans spent their lives in spending a single limb. —From an article in *Fraser's Magazine*.

# THE TRI-WEEKLY YEOMAN.

TUESDAY NOVEMBER 30, 1871.

## ERNER'S MESSAGE AND PRESIDENT'S MESSAGE-SUPPLEMENT.

As the General Assembly of Kentucky and Congress will meet on Monday, we propose to issue in our next weekly the Governor's and the President's messages. We shall also be able to furnish to such of our weekly exchanges as desire it a half sheet supplement, on the following terms:

One hundred copies \$3.00  
Two hundred and fifty copies \$6.00  
Five hundred copies \$10.00  
Orders should reach us on or before December 6th.

KATIE PUTNAM AT MAJOR HALL.—After a very successful engagement at Lexington, which closed last night, Miss Katie Putnam will appear at Major Hall to-night in two of her best pieces. She has always been a favorite with our play-going people, and, we doubt not, her present visit will prove that she has lost none of her popularity. She will appear also to-morrow and Saturday night in a change of programme each time. Tickets at Marshall's book store.

UNDIN THANKSGIVING SERVICES.—For several years it has been customary for the congregations of the Baptist, Presbyterian, Methodist, and Christian Churches, to unite in the observance of Thanksgiving by a sermon preached by one of the respective pastors. This year the service will be held in the Methodist Church at 11 o'clock, and Rev. J. H. Nelsont of the Presbyterian Church will deliver the sermon.

RIVER MATTERS.—There has been a slight fall in the river since our last issue. The Dove, from Louisville, is due here this afternoon. The Dick Fulton arrived yesterday with a barge of coal for Black & Chin. The Dick Fulton is a first-class tow boat, and has been recently purchased by G. B. Macklin & Co. She was bought with a view to accommodate the Kentucky river trade, and in the future there will be no delay in the transportation of coal, iron, etc. She left yesterday morning for the Ohio river, for another tow of coal.

STOCK SALE.—Mr. J. W. Hunt Reynolds shipped to South Carolina on yesterday a car-load of stock—horses, cattle, and hogs. Among the lot was a fine pair of black horses, for which he received twelve hundred dollars.

SURVING AFFRAY.—We learn from the Paris Citizen that a shooting affray occurred in Cynthiana on Tuesday afternoon, "in which W. W. Smith, of the Smith House, was shot by a man named Sinclair, of Georgetown. The wound is not serious. Sinclair was arrested and was to be tried to-day."

A young man in Meriden, Connecticut, wished to marry the other day, and was opposed by his mother. As the shortest road out of the family difficulty he cut her jugular with a butcher knife, and then ended his own life in the same way.

The British Government has granted a pension of three hundred pounds to the children of Dr. Livingstone, the African explorer. Livingstone, when last heard from, was slowly making his way towards the coast.

Miss Nellie Murphy was the first young lady in New York who had the honor of dancing with the Grand Duke Alexis. As her name really indicates she is of French extraction.

The Carrollton Democrat says: "We regret to learn that General Wm. O. Butler, with a serious accident the other day while walking, his feet caught in some brush, and, though remarkably vigorous for one of his advanced age, he fell, bruising his feet and injuring his shoulder considerably."

THE MAILS TO DAY.—It being thanksgiving day the post-office will not remain open longer than thirty minutes after the arrival of each train.

Rev. Walter Coomes, a venerable Priest and for many years Chaplain of the St. Vincent's Orphan Asylum, Louisville, died at that institution on Tuesday morning.

Train's wonderful progress as a Presidential candidate is indicated by the fact that he is so far assured of his success as to have already selected his cabinet. Col. James A. Dawson is spoken of as Secretary of State.

Attention is called to the advertisement of Jno. P. Morton, & Co., Louisville, who have on hand a large assortment of law and miscellaneous and blank books for sale.

A hunting party, consisting of eight persons from Montgomery county, killed in Breathitt county twenty deer in seven days.

GANGER—Mr. J. L. Sage, of this city, has been appointed ganger in this (the seventh) district, vice Col. Orlando Brown resigned.

It will be seen, from an announcement elsewhere, that Col. S. I. M. Major, representing the firm of Major & Johnston, is a candidate for Public Printer.

Black and Chin have received, per tow boat Dick Fulton, one large best Pittsburgh coal, that they are retailing at low figures.

ASCENSION CHURCH.—There will be thanksgiving services at the Episcopal Church this morning, at 11 o'clock.

A COAL DROP.—It is gratifying to announce that our coal dealers are retailing Pittsburgh coal at twenty-five cents per bushel.

A ludicrous story is reported from the South to the effect that the carpet-bag tribe are telling the colored population their right to freedom is gone since the original copy of the emancipation proclamation was burned in the Chicago fire, and unless money enough is raised, there is nothing to prevent their old masters putting them all back into slavery.

## GEORGE FRANCIS TRAIN AND THE GRAND DUKE ALEXIS.

From the following dispatches it will be seen that, while there is a remote prospect that the Grand Duke Alexis may be here on Tuesday night next to hear George Francis Train speak, our people need not set their hearts too much on it:

DEVAL'S BLUFF, Ark., Nov. 28th, 1871.  
*To the Grand Duke Alexis, Alessandroff, New York:*

Made my 73rd campaign speech at Little Rock last night; will speak at Frankfort, Ky., on Tuesday night next, Dec. 5th. The citizens of that place tender you a cordial invitation to accept their hospitalities. Meet me there. I have important information for you, touching your diplomatic mission. Love to the old gentleman when you write.

GEORGE FRANCIS TRAIN,  
Next President of America.

[ANSWER.]

CARLTON HOTEL, N. Y., Nov. 29, 1871.

*George Francis Train:*  
I can get through with these everlasting receptions and shake off these foolish women who want me to dance with them, will meet you in Frankfort as desired. I'm for you, for President. Catacay and Poisset send love.

ALEXIS.

## LEGISLATURE AND CANDIDATES.

At the meeting of the Legislature on Monday, both Houses will have a number of persons as candidates for the different offices necessary for their organization. Those number who have already signified their willingness to serve as officers, there will be difficulty in selecting competent men. Below we give the names of a number of gentlemen who, we learn, many of them having already been announced, are candidates for all the offices to be filled, except that of Speaker:

Senate.

For Sergeant-at-Arms—W. N. Rohr, of Scott; William Marshall, of Bracken; D. S. Bishop, of Magoffin; John Davish, of Owen; B. F. Bigard, of Cumberland; L. C. Winfrey, of Adair; H. M. McCarty and Guy Davis, of Louisville.

For Door-Keeper—S. O. Crockett, of Franklin; Newton Craig, of Scott; J. G. Reed, of Louisville; T. T. Eggar, of Jessamine; Landis Carter, of Anderson; W. A. Owlesley, of Calloway; and W. M. Cargill, of Graves.

For Clerk—W. T. Samuels, of Hardin; G. W. Silverthorn, of Hickman, and J. Russell Hawkins, of Franklin.

For Assistant Clerk—John L. Sned, of Franklin; D. T. Towle, of Green; W. P. McLaughlin, of Campbell; W. H. Miller, of Lincoln; B. W. Stowe, of Allen, and W. T. Havens.

For Clerks—M. T. Chrisman, of Boyd, and T. S. Pettit, of Davies. We have heard of no opposition to either as yet.

"THE ALDINE" FOR JANUARY, 1872.—Much curiosity has been aroused to see this new "Champion of American Art," and the publishers to gain a fruitful harvest by a timely gratification of this very natural feeling, have brought out the initial issue a month before the usual time.

The verdict, which they have been so long anxiously working for, must be favored. The fulfillment is certainly up to the promise which is saying a great deal.

As a first number, the one now before us speaks well for the management of Mr. Sned, who will well merit all that has been conceded since the announcement of his assumption of the editorship.

Of the new American Art feature it is not too much to say, that the beginning is all that could be wished by the most enthusiastic critics. The illustration on the first page "Paul Mallor," is one of the happiest instances that has ever come to our notice of the power of the pencil to reinforce the pen. The perfect harmony of ideas between the quoted lines of Whittier's best production and the delicate graceful figure of Miss Davis' delineation will be grateful indeed to all lovers of that poetry which is not confined to words.

For the artist who, we understand, is a young lady of about twenty, we predict an enviable success in the path she has chosen—a path untraversed by questions of woman's rights.

The full page picture, from a design by Darley, "The Nooning," is, in itself, a prize;

Henry Linton, the engraver, has produced, in relief, all the delicacy of a fine steel engraving, and the picture is wonderfully suggestive of the American Bank Note Company, for whose vignettes the very best work of this artist has been produced.

BLACK JACK.

"A novel ceremony is to take place in Washington on Thanksgiving Day. A church spire is to be dedicated. After the usual matin service is over, eleven little girls, each bearing a banner with the inscription on each scroll, will enter the church. Several brief addresses from distinguished orators will then follow. Then the audience will retire to the vestibule and surrounding sidewalks of the sanctuary, when will be chanted "Antioch, " "Home, Sweet Home, " "Hail Columbia, " & Then will be chanted "Old Hundred," the entire congregation and multitude at the same time singing the doxology, "Praise God, from whom all blessings flow." It is thought that this ceremony will attract crowds of sightseers.

In time Maysville will have half a dozen saloons centering here. Among others, we must not forget a narrow gauge road through Lemingsburg to the mountains. Next year or present railroad tax will be lifted from our pockets, and that for the Kentucky and Great Western will scarcely be felt. It will be in progress by that time; our tax receipts for the Maysville and Lexington road will rapidly appreciate in value, and will sell for enough to pay the tax for the Kentucky and Great Western. Then the people of Maysville will be ready to move towards the mountains to get at iron and the coal of Morgan. At this will come in time, and Maysville will yet be the second city in Kentucky in wealth and population. There is no better field for speculation in real estate any where than there is at this time.—*Maysville Eagle.*

LOCAL NOTICES.

A CHALLENGE \$100 to \$500 dollars

Open to any person in Frankfort that can produce as skillful a specimen of plumbing (their own make) as done at Seeley's, St. Clair street.

FOR cheap pumps and hydrants, go to Seeley's, St. Clair street.

FOUR Evils.—Whoever habitually uses any alcohols preparations as an appetizer will be likely to suffer from four evils, viz: an overplus of food in the stomach, impaired ability to digest it, the power of dyspepsia, and a doctor's bill. Dr. WALKER'S VEGETABLE VINEGAR BITTERS, the great Tonic and Restorative of the age, without over stimulating the palate or irritating the stomach, imparts a healthy appetite, promotes digestion, regulates the liver and bowels, purifies the blood, and thus instead of entailing four evils controls four inestimable benefits.—4w.

The President has ordered the issue of land patents due the Southern Pacific Rail ad Company, the commissioners having re-

ferred the case to the U. S. Surveyor.

The Bowing Green Democrat learns at the labors of the gentlemen deputed by the United States Coast Survey to make astronomical observation at Oaklawn Station, in arrears, one of the points where the entire edge of the sun was observed, have re-

ferred in the following determinations, viz:

Altitude of station, 37° 27' 27"; longitude, 92° 27'; magnetic variation, 45° 14' east.

## THE TRI-WEEKLY YEOMAN.

### A GOOD WIFE.

The following old receipt for the choice of wife seems to us a very good one:

As much of beauty as preserves affection,  
Of modest dulness as claims protection,  
Of docile mind, subservient to correction,  
A temper led by reason and reflection,  
And every passion kept in due subjection;  
Just faults enough to keep her from perfection;  
Find this, my friend, and then make your selection.

To Make Butter and to Cure Ham.—At the Richmond, Virginia, State Fair, which has just been held, Dr. J. A. Reid took the first premium for butter, and made the following statement of his method of making it:

We cool the milk as soon as possible after it is milked; a small portion of ice around the pail cools it very soon. The milk is allowed to stand about twenty-four hours before it is skimmed; and, if properly cooled when first milked, it will not turnick or sour in that time, in scarcely any weather in a well ventilated dairy. We use care in skimming to take only the cream—the less mix with the cream the better. The cream is kept in good stone jars, and chilled as soon as it begins to sour. We use the butter churn and press the whey all out of the butter with the paddle; it is then salted at the rate of one ounce of salt to one pound of butter, which is well worked in the butter. It is then set aside for six or eight hours for the salt to dissolve and the butter to cool, when it is thoroughly worked and pressed to get the whey all out of it, and packed down at once in stone jars, using the paddle and rocker all the time, and never touching it with the hand. An ounce of salt is none too much as a large portion of it is carried off with the whey in the last working of the butter. As soon as the jar is filled a thick coat of salt is put over the top of it, then a piece of paper greased by dipping it in molasses, a cup of butter is placed over the top of that, then another full of paper, and all secured by tying a thick cotton cloth over the mouth of the jar. Butter-mongered in this way will keep from May until the next spring perfectly sweet.

S. W. Ficklin, of Abemore county, who took the first premium for ham, stated that he cured them as follows:

For each one hundred pounds of hams, ten pounds salt, two ounces saltpetre, two pounds brown sugar and one ounce red pepper, and from four to four and a half gallons of water, or just enough to cover the hams after being packed in a water-tight vessel (or enough salt to make a brine to float a fresh egg high enough or out of the water). From five to six weeks brine, hang up, smoke, and then put in papers, and bagged with the hock turned down, and hung till wanted. Boil all well done.

Charlotte Russe.—Make sponge cake Two cups flour, two of sugar, four eggs, two thirds cup boiling water (added to sugar and half), one teaspoon cream tartar, one half teaspoon of soda, add whites last. Spread this very thinly upon biscuit tins, and when baked and cool fit it in strips around the edge of oval tins. My tins are of such a size that I cut the cake once in two lengthwise, and the two strips exactly fit inside them, both to length and width. The filling is made as follows: A scant ounce of Cox's glass or gelatine, with a teaspoon of cold water added; let it stand an hour or more; when cooled, set the bowl into a pan of boiling water, and it will melt in a few moments. [Steal this tint the rest when you fill it.] Make a boiled custard of one and a half cups milk, four yolks of eggs, one teaspoon sugar, and let it get cool. Beat the four whites very stiff. One pint of very nice cream, with or without wine and one of sugar, is beaten until very stiff, and the ingredients mixed, first the custard and strained gelatine, next whites, lastly cream and a little vanilla. Use a whip for the cream which screws upon the table, and is turned by a crank. It is invaluable. This Charlotte Russe is very much liked, and never fails with me. It is necessary to thoroughly mix the whole, and turn immediately into the molds. It congeals more readily upon ice.—*Hearth and Home*.

Keeping Celery Through the Winter.—Peter Henderson, in his advertising for Profit, gives the following as his mode of keeping celery through the winter:

He banks up the plants early in the autumn, only enough to keep them upright, or else he sets them a foot apart each way when set out, so as by standing so thick they run up without any banking at all. These are taken up on dry days only and set in very narrow ditches, dug just as deep as the length of the plants—those for early winter use about the end of October; those for midwinter about the 10th of November; and those to last toward spring as late as the frost will permit, say the 20th of November. They are set compactly together upright, with no earth except what goes on the roots. The ground where the plants stand must be high and dry, so that no water can ever stand in the ditches. The portion to be used early in winter will need but little covering; but the covering for the rest, must be gradually deepened, so as to exclude the frost, until a foot or more in depth. Frost leaves would doubtless be best for this covering. It must be applied gradually, so as to allow some ventilation and prevent decay. Celery thus treated may be readily taken out when wanted. It will be understood that the blanching process is completed while the plants are in these trenches.

Cocoa-Nut Cake.—One cup butter, two of sugar, three of flour, one of milk, one teaspoon soda, two of cream tartar, whites of eight eggs, essence lemon; like in jelly-like this pipe up, spreading frosting very thinly over each sheet, and sprinkling over it grated coconut. After all are over, cover the sides and top with frosting, and over that grated coconut—it is very beautiful, and exceedingly delicate and nice. One cocoa-nut is hardly enough for a large loaf, I cause two by being prudigal of it between the layers.—*Hearth and Home*.

Raised Loaf Cake.—Three and a half pounds of flour, two of sugar, one pound two ounces of butter, two pounds raisins, one pint and a half of milk, one half-pint of yeast, four eggs, three nutmegs, one gill of wine, one gill of brandy. Reserve half the butter and sugar and all the spices and spirits until the dough is light. Then add them, and put the dough into the tins; let it rise again until very light. Stir up at noon, put in this at night, bake next morning.—*Hearth and Home*.

Fruit cake may be made at any time; it is better not too fresh. The pound each of flour, sugar, butter, cream, and almonds, two pounds of raisins and two pounds of currants, twelve eggs, one whoopie of wine and two of brandy (two nutmegs). Blanch the almonds and split them, and add with the fruit. Bake in a milk-pan three or four hours.

*Hearth and Home.*

Tell that man to take off his hat in court! said a judge, the other morning, to an officer. The offender, who turned out to be a lady, wearing the fashionable sailor hat, indignantly exclaimed, "I am no man sir!" "Then," said his honor, "I am no judge!"

GOLDEN CAKE.—Yolks of eight eggs, one cup of sugar, one half cup butter, one half cup milk, two of flour, one teaspoon cream tartar, one half of soda, and essence of vanilla.

*Hearth and Home.*

### PROFESSIONS.

P. U. STADY. W. L. JETT.

### MAJOR & JETT.

ATTORNEYS AT LAW.

Frankfort, Ky.

WILL PRACTICE IN THE FEDERAL Circuit Court in Kentucky, in the Court of Appeals, Franklin Circuit Court, in the Circuit Courts held in the counties of Franklin and city of Frankfort.

Office over M. H. Clark's book and shoe store, on Main street.

P. U. MAJOR

WILL PRACTICE REGULARLY IN THE Circuit Courts of Henry, Madison, Boone, and Gallatin counties, and in the Circuit Court Carroll county, in conjunction with W. L. Jett, Carrollton, and also in the Owen Circuit Court in connection with H. P. Montgomery, of Owenton.

T. N. & D. W. LINDSEY,

ATTORNEYS, FRANKFORT,

WILL PRACTICE IN COURT OF APPEALS

and Circuit Court District Courts of the United States, and State Courts in the Circuit Courts of Franklin, Shelby, Fayette, and Lincoln counties.

Frankfort, the 1st day of October, 1870.
